BECAUSE YOU MATTER

## Welcome to The Pathway

The Pathway is an alternative provision service for PRU, YOT and NEET learners predominantly.

We are very fortunate to be able to help in the lives of young people and to offer our guidance onto the correct pathway to achieve all they can.

Having worked all over the world engaging so many different young people from a variety of backgrounds, our aim is to give our young people all the tools they need to be successful as well as giving them the opportunity to experience different activities in a safe environment.

Success is measured in a number of different ways with each individuals needs being different.

It really is an exciting time for us all and we cant wait to see our young people grow and develop in preparation for the big wide world.

Nothing is more expensive than a missed opportunity!

The Pathway purely focuses on the individual and their needs. Level by level we create a pathway for our young people to transition through and continue their individual developmental needs in a positive environment.
