Additional Provision Information	
<p>Remedicare work with children and young people who are struggling to access education. We work with young people in Mainstream Schools, Specialist settings or who are currently displaced or disengaged from education. We support those with emotional or behavioral difficulties, SEN, SEMH, serious health issues. We offer support in schools, off-site or bespoke timetables at our Alternative provision. Our aim is to offer our young people a wraparound therapeutic service to enable them to re-engage in specialist or mainstream education. We use a PBS approach to deliver person-centered, high quality education and therapy, ensuring that students are able to access education in a safe and therapeutic environment. Working holistically with each student, their school and their parents/carers, we develop bespoke interventions. Our team of highly trained staff include Teachers, counsellors, art therapist and CBT therapists all with the knowledge and experience to support young people with complex needs. Each student's engagement and progress is monitored daily with 1:1 sessions. Every bespoke provision we offer has identified targets, these are monitored closely to ensure we are meeting needs and adapted when necessary. We are able to support and facilitate the tuition of most qualifications generating evidence of learning and helping students create a sense of achievement for moving into formal education and beyond.</p>	
Pastoral Support Offered – please provide a summary of the pastoral care you provide	
<p>We offer a child centered therapeutic provision. Every young person we support has 2 key workers that will support their journey with Remedicare. Young people have daily 1:1s with their key workers to support them to feel regulated and ready to engage. They will support students to have input in their bespoke timetables and set achievable targets, which are regularly monitored. The young people attending our Alternative provision will also be offered sessions with our Qualified Therapists and Counsellors as part of their timetable, supporting their social, emotional and mental health needs. We work closely with the child, family and other professionals with a high level of safeguarding.</p>
