

Let's go on a listening walk!

Children need to **hear** lots of different words to learn to talk.

We can make things fun to keep our children interested.

Try going on a listening walk and see what you can hear.... talking about things as they happen makes it easier for you child to remember them.

Use lots of fun and interesting words to describe things!

We would love to hear about your walk and
what you heard.

We'd love to see photos of you on your walk
on our Children's Centres Facebook page,
and it just might inspire other to go their
own listening walk!
